Chairman's Message

Warm Greeting from Chairman Talal Al Jeri

We at Rakan Pursue our aspiration to be the best performing company in the region of Kuwait.

We have built up this company on the four pillars of hard work, integrity, adaptability & pursuing excellence and continue to do so with organized entrepreneurial Management.

Our commitment to client satisfaction forms the basis of our philosophy.

We have a very strong history & background of success in our sector, and we take pride in its commitments to remain at the leading edge of our sector.

With the change in Company name, from ARG T Regional General Trading & Contracting Co. To Rakan Engineering General Trading & Contracting LLC., comes the motivation to achieve new heights and refinement in the Company's Business Goals for our entire team.

Introduction

RAKAN is one of the leading companies in the Kuwaiti market in the field of trading & contracting in oil and gas sector. Rakan's experience in these fields goes back to 2007 and therehence maintained a high reputation in the execution of the most strategic and vital projects.

There are many factors that contributes to Rakan's successes. The most important include our efficient, skilled and experienced personnel and their comprehensive engineering knowledge, the utilization of the most current and advanced technologies, and its extended quantitative and qualitative services that meet our customers' satisfaction. RAKAN continuously seeks upgrading and sustaining its safety and environmental standards in conformity with its ISO 900114001-18001-certification.

We wish to introduce ourselves as one of the leading companies in Kuwait doing business since (2007).

- Rakan's business ranges from trading to equipment rental, to contracting.
 - We own a large fleet of heavy and earth moving equipment in line with Kuwait National Petroleum Company (KNPC) & Kuwait Oil Company (KOC) specifications as they are considered our most important clients and our name is approved in their relevant category of approved contractors supplying heavy earth moving equipment.
 - RAKAN has a nucleus of highly skilled and qualified senior management, a well-known wealth of Consultants, a capable dynamic middle management, and a scarce back-up staff with diversified training in the relevant areas.
 - RAKAN is a formidable team of Achievers with an overriding loyalty to their professions and total dedication to the goals and work philosophy and ethical culture of the company. Key human assets have no less than 25 years' experience in the practicalities, realities and complexities of oil and Gas Field, with the added depth of proven academic excellence to their credit.
 - This small - but highly effective - core of "achievers" ensures competitiveness, while their recognized status in the relevant industries gives access to an infinite pool of remarkable diversified resources.
- Our recognized status in the relevant industry gives access to an infinite pool of remarkablely diversified resources.

Vision & Misiion

To grow with the nation by performing our services to the highest ethical and professional standards, thereby contributing to the nation's energy sector and to emerge as a forerunner in the industry.

Values

- ✓ RAKAN is proud to be a trusted and supportive partner to every single client.
- ✓ RAKAN believes in embracing opportunities as a responsive and reliable business partner.
- ✓ RAKAN advocates the culture of a self-sufficient workforce.
- ✓ RAKAN is One Team, One family.

Quality Objectives

- On time completion of projects within the budgeted allowances (The objective will be considered for all kind of activities such as Mechanical, Civil, E&I works, Piping, scaffolding, sandblasting, fire proofing, etc.)
- To develop quality plan against each project and to minimize the number of quality complaints during execution of work. Performance evaluation for suppliers and subcontractors help us to provide our services beyond client expectation.
- Reduction of number of equipment breakdowns comparing with last year performance.
- Rakan's business is ranges from trading to equipment rental, to contracting with highly skilled manpower supply, etc.

Quality Policy

- ✓ We at Rakan Engineering General Trading & Contracting LLC., strive to achieve sustained, profitable growth by providing products and services which consistently satisfy the needs and expectations of our customers.
- ✓ We are committed to maintain and enhance our reputation through continual improvement of our products and services, diversifying our capabilities and expanding our customer base.
- ✓ We are committed to the safety and health of all our team members and the preservation of our natural environment.

Health Safety & Environment Policy:

RAKAN Engineering General Trading & Contracting LLC. is committed for maintaining the high standards of health, safety, and environment protection in its operations. To achieve the core purpose the company has initiated the progressive implementation of HSE management systems in all our activities.

The salient features of HSE Policy implementation in our operations are:

Development of HSE Policy demonstrating its commitment towards employees, contractors, society and the environment of operational areas at large.

Maintenance of high standards of HSE competency of employees & contractors through HSE training and increased awareness.

Ensuring that our HSE standards and practices always influence contractors to raise their standards to meet them.

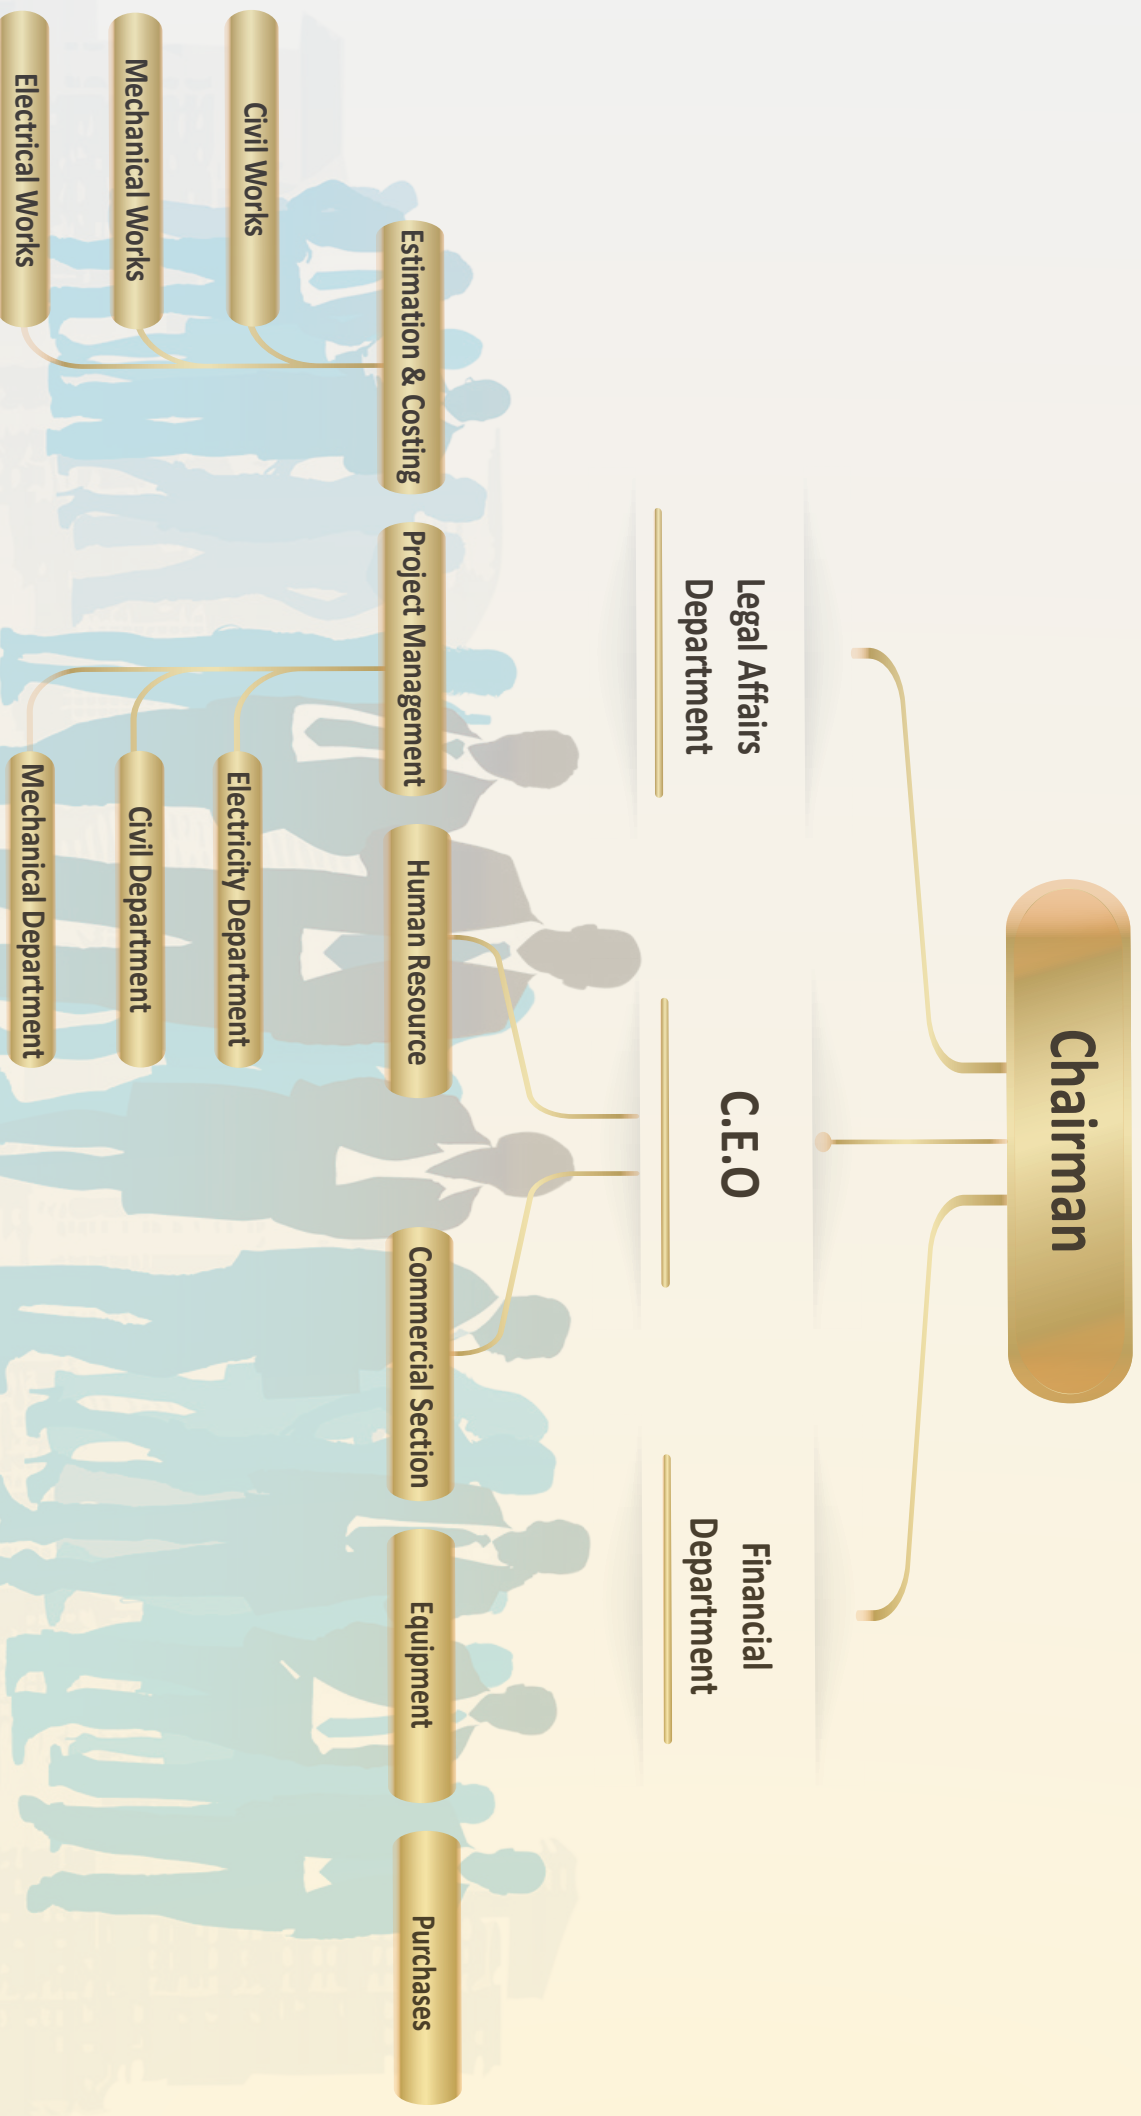

Development of systems to monitor and measure our HSE performance through regular audits and checking of effectiveness of control measures being implemented time to time.

Practice of working with statutory and government bodies in the compliance of laws, policies, regulations and practices aimed at improved HSE performance.

Everyone who works at Rakan Engineering General Trading & Contracting LLC. is responsible for their safety and the safety of others involved. Our commitment to HSE performance is an integral part of our business, and achieving cost-effective solution is essential to our long-term success.

The responsibility for complying with this Policy lies with each and every individual of the organization.

Rakan Organization Chart

Oil & Gas Industrial

During the last 10 years, rakan has executed a wide variety of projects for Governmental bodies including Kuwait Oil Company (KOC), Kuwait National petroleum Company (KNPC), Petrochemical Industries Company (PIC), Equate Petrochemical Company, Joint Operations (JO), Ministry of Electricity and Water (MEW), Ministry of Public Works (MPW) and Leading International EPC Contractors, such as Hyundai Engineering Co. Ltd., Bechtel International Inc., Hyundai Heavy Industries, SKEC, KRUPP Gmbh, Mitsubishi, Deutsch Babcock, Royal Schelde.

As a frontier in the Oil & Gas field of industry, Rakan has executed many multi-discipline EPC and maintenance projects.

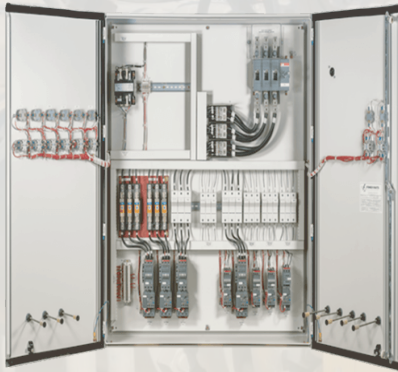

RAKAN is also known for its strict adherence to specification and safety that goes beyond its clients expectations. It is one of the first companies in Kuwait to start using the KUDAMS (Kuwait Utility Data Management System) data design work.

This distinguished capabilities and commitment to professional project management, quality and safety enabled us to maintain our promise to our clients to meet timelines & cost and to exceed the performance expectations.

CORE SERVICES

-  Electrical and Instrumentation
-  Mechanical Works
-  Civil Works
-  Infrastructure
-  Heavy Equipment

ELECTRICAL & INSTRUMENTATION & COMMUNICATION

KOC Category (5) Electrical Installation and Maintenance Plant, Switchgear and Cabling.

Our company carries out & implement the electrical, instrumentation, and communications systems including the supplying, installation, Testing, Pre Commissioning and Commissioning the electrical, instrumentation and communications systems with Optical Fiber Cable Networks and all related works. Our company is qualified to carry out all of these work and we have the ability to participate in tenders and Projects submitted through the Central Tenders Committee, the oil sector companies and the Kuwait Petroleum Company.

ELECTRICAL WORKS

Based on customer requirements, contracts and technical specifications for each project requires the provision of electrical power supply to operate the electrical systems and lighting systems for operating areas, as well as providing the electrical power needed to operate the measurement and remote Terminal units for measurement and control systems and the detection system of fire and gases where our company performs the implementation of these works by engineers and technicians with high experience and full knowledge of the requirements and procedures for implementing oil sector projects at the level of the State of Kuwait and the Gulf Cooperation Council Countries.

Procurement, supply, installation, testing, pre commissioning of EX'd industrial Flame proof & domestic Electrical equipment.

- ✓ Electrical power & Lighting distribution panels & Boxes.
- ✓ Electrical Lighting Fixtures.
- ✓ Electrical power sockets outlet.
- ✓ Electrical MOV / ROV Local Isolators.
- ✓ Electrical Cable glands.
- ✓ Electrical Motor Local Control Stations.

- 1- Procurement, supply, installation, testing, pre commissioning of Industrial & Domestic Uninterruptible Power Supply (UPS).
- 2- Procurement, supply, installation, testing, pre commissioning of solar power systems.
- 3- Procurement, supply, installation, testing, pre commissioning of Electrical Diesel Generators.
- 4- Procurement, supply, installation, testing, pre commissioning Earthing & Lightning systems.

INSTRUMENTATION WORKS

Based on customer requirements, contracts, and technical specifications for projects, we have a group of highly experienced engineers and technicians who specialize in the implementation of instrumentation and control & measurement systems and fire and gas detection systems, as well as Programmed Logical Control Systems and Distributed Control Systems where we provide a review service Engineering designs, purchase and supply of materials according to technical specifications, installation, testing and operation of these systems in coordination with suppliers and their engineers to complete the work to the fullest extent and deliver them to the owner or his representative, according to the technical specifications of projects and contracts.

1- Procurement, supply, installation, testing, pre commissioning of industrial & domestic Instruments Control System equipment.

- ✓ Cable glands.
- ✓ Flame detectors.
- ✓ MOV / ROV Control System.
- ✓ Toxic & Combustible detectors.
- ✓ Flow Measurements Instruments.
- ✓ Motor Local Control Stations.
- ✓ SCADA, POIS, ESD & GMIS Control Systems.
- ✓ Pressure & temperature Indication Instruments.
- ✓ Remote Terminal Unites & Fire & Gas Panels distribution panels.
- ✓ Programmed Logical Control Systems and Distributed Control Systems.

2- Procurement, supply, installation, testing, pre commissioning of Instruments Cables.

COMMUNICATION SYSTEMS WORKS

According to the requirements of clients, contracts and technical specifications for projects, we have a group of highly experienced engineers and technicians who specialize in the implementation of communications systems works and their optical fiber cable networks, as well as distribution boards, data transmission systems, telephone systems, and wired communication systems and Wireless and computer systems, where we provide a service to review engineering designs, purchase and supply of materials according to technical specifications, installation, testing and operation of these systems in coordination with suppliers and their engineers to complete the works to the fullest extent and deliver them to the owner or his representative, according to Technical specifications for projects and contracts.

- ✓ IP Phones Networking.
- ✓ Internet Data Networking.
- ✓ Communications Networks UPS system.
- ✓ Telephone networking system.
- ✓ SCADA Networks Cabinets.
- ✓ Corporate Networks Cabinets.
- ✓ Optical fiber cable networks.

Mechanical

WORKS

Mechanical Engineering is the core discipline which is a beacon for the foundation for various Engineering aspects both Analytical and Theoretical. We at RAKAN, are experienced at its core aspects with expertise in its major scope of areas such as Piping, Flow lines and with a perennial experienced team of experts and professionals in our firm representing to facilitate the various Mechanical operations for Major clients and Companies.

OUR PERFORMANCE

We possess Expertise at large flow line and piping work at various locations of oil and gas operations in Kuwait. We have an extensive Understanding with our major Clients for the good and optimum results for a better out-come.

We highly comply with standards of Kuwait Oil Company (K.S.C), Kuwait National Petroleum Company (KNPC) and other international oil companies.

Our team of professionals and experts have a better understanding with interdisciplinary work performed through the various operation in the field. Our work isn't limited to Preliminary bases, we look forward with its supervisory maintenance and smooth working of different plants.

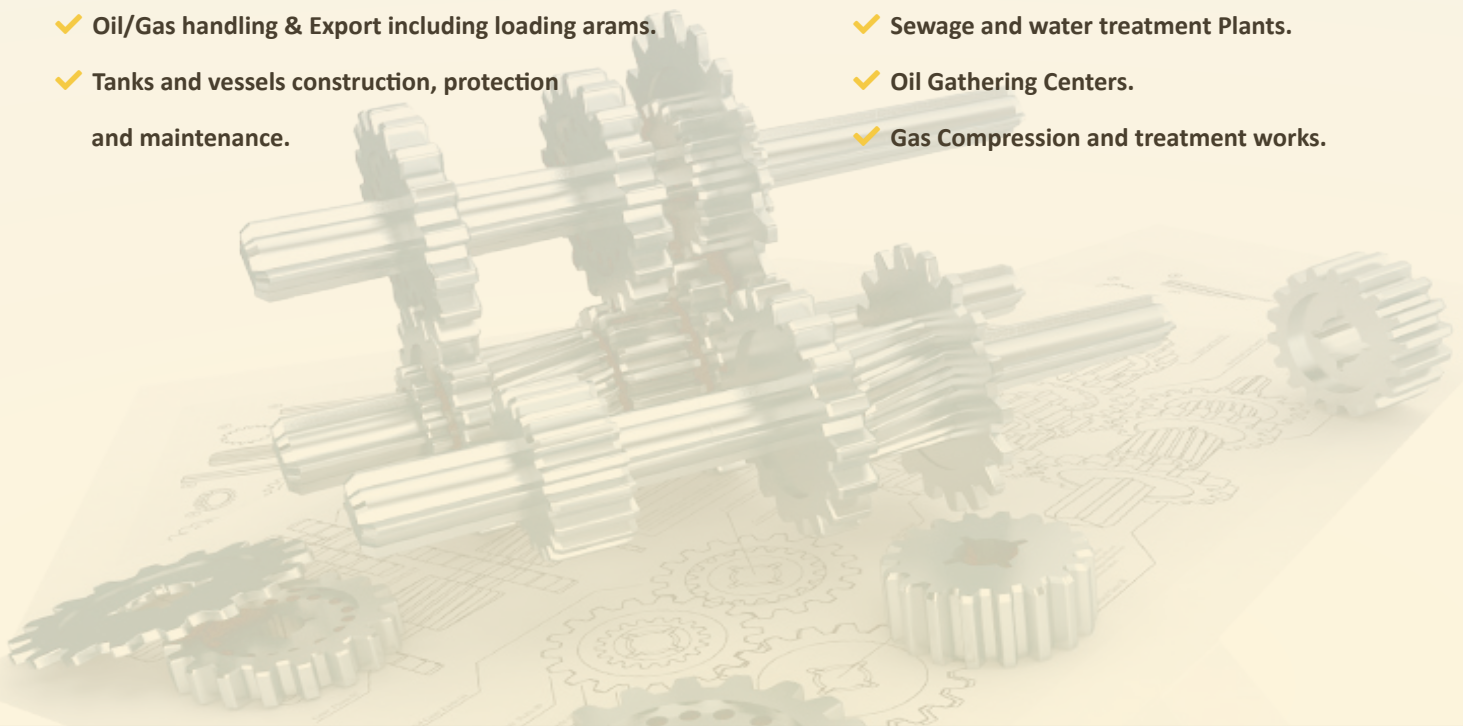

At RAKAN, we hope for a better and sustainable future in the oil and gas industry and to become a hub for the leading company in the region, dealing in the various operations and works in oil, gas & petroleum industries.

Nature Of

Mechanical Works

- ✓ Refineries & Petrochemical Plants.
- ✓ Oil/Gas and Water Piping Works.
Including hot / cold tapping
- ✓ Pipelines Works.
- ✓ Steel Structure
- ✓ Reactor Towers Testing.
- ✓ Oil Gathering Centers.
- ✓ Gas Compression and treatment works.
- ✓ Oil/Gas handling & Export including loading arms.
- ✓ Tanks and vessels construction, protection
and maintenance.
- ✓ Steam Generators.
- ✓ Sea Water Intake Line.
- ✓ Conveyor Belt System.
- ✓ Fire Fighting Protection System.
- ✓ Inspection, Non-Destructive.
- ✓ Maintenance works for refineries, petrochemical,
oil field facilities and power plants.
- ✓ Power and desalination plants.
- ✓ Sewage and water treatment Plants.
- ✓ Oil Gathering Centers.
- ✓ Gas Compression and treatment works.

Civil

WORKS

With the constant support of our team of experts, and the support of our management, we are engaged in offering a wide range of Civil Construction Services. These services are rendered in accordance with the prevailing trends and standards of the industry. We make use of the best quality basic materials, coupled with advanced techniques to offer these services. We undertake these projects only after co-coordinating with our clients. We employ the latest and sophisticated tools and machinery to deliver these developmental services. These services are renowned for their quality and are delivered within the stipulated time frame.

Our team is able to provide the following Civil Services:

OUR PERFORMANCE

We possess Expertise at large flow line and piping work at various locations of oil and gas operations in Kuwait. We have an extensive Understanding with our major Clients for the good and optimum results for a better out-come.

We highly comply with standards of Kuwait Oil Company (K.S.C), Kuwait National Petroleum Company (KNPC) and other international oil companies.

Our team of professionals and experts have a better understanding with interdisciplinary work performed through the various operation in the field. Our work isn't limited to the Preliminary bases, we look forward with its supervisory maintenance and smooth working of different plants.

At RAKAN, we hope for a better and sustainable future in the oil and gas industry and to become a hub for the leading company in the region, dealing in the various operations and work in oil, gas & petroleum industries.

Infrastructure Construction

RAKAN is classified with Central Tenders Committee as – I Infrastructure contractor for clients such as Ministry of Public works, Ministry of Energy & Water, Public Authority for Housing welfare and Public Authority for Industry.

Its specialization in Micro tunneling and CCTV works brings an edge to its capabilities. on Its Expansion to Asphalt and concrete plant operations reflects its development vision.

RAKAN has executed Micro tunneling works for pipelines diameter ranging from 200mm to 1600mm. It is one of the few qualified contractors in Kuwait for Trenchless construction. Major Micro tunneling achievements in last 5 years include:

INFRASTRUCTURE WORKS

- ✓ Dia. 700 mm pipe: 1,500 meter continuous length at average 14m depth from ground level for SE/23 Doha & Jahra Resew rage Project.
- ✓ Dia. 200-400mm pipe:1,500 meter vario segments for SE/45 -Rabiya Resew rage Project.
- ✓ Dia. 600-700mm pipe:1,750 meter for the above SE/45 – Project.
- ✓ Dia. 900-1600mm pipe:2,850 meter for SE/11- Project for water lines.
- ✓ Construction by pipe jacking method along 6th ring road.

RAKAN is also known for its strict adherence to specification and safety that goes beyond its clients expectations. It is the first contractor in Kuwait to start using the KUDAMS (Kuwait Utility Data Management System) data design work.

These distinguished capabilities and commitment to professional project management, quality, and safety enabled us to maintain our promise to our clients to meet timelines & cost and exceed performance expectations.

Heavy Equipment

Supply

Equipment Department comprised two main sections:

- ✓ Operation Section.
- ✓ Maintenance Section.

The function of this departments is to provide support to our own projects as well as hire-out service to external clients.

The equipment maintenance has 900 units of heavy including heavy lift cranes, earth moving equipment, cargo vehicles, as well as other ancillary equipment.

The equipment maintenance section has comprehensive and fully equipped modern workshop and mobile repair capabilities. A full range of maintenances performed including preventive maintenance, repair, and overhauling.

Service includes electrical works, machine shop Services, under chassis repair and body repair.

These facilities helps us to meet our client's requirements efficiently.

List of the Provided Equipment:

- ✓ Loaders.
- ✓ Cranes all Size.
- ✓ Trailers.
- ✓ Vacuum Tankers.
- ✓ Water Tankers.
- ✓ Lowbed.
- ✓ Bobcat.

+ Any other heavy equipment the work in site might require

Skilled Staffing

Solutions

Rakan Logistics and Supply Services with a proven track record specializes in the selection, recruitment and placement of manpower of various professionally highly vetted & experienced, highly skilled, skilled and unskilled categories to Middle East, Far East and European Countries.

Our workforce consists of a diverse background of multicultural individuals which hold a variety of educational degrees and certifications from around the world.

Attention: Mr. Manuel Cobollo
Project Director

Subject: Request for Approval of Lower Tier Subcontractor to M/s. Kentech International Ltd. for Supply of Manpower to Support Clearance of Electrical Punch Lists

Reference: 8595-LT-TR-AMEC-GTS-15039 received on 3rd February 2021

Dear Sir,

With reference to the above mentioned subject, please be informed that Company approves the award of M/s. Rakan Engineering General Trading & Contracting LLC as lower-tier Subcontractor to M/s. Kentech International Ltd. for the supply of manpower to support clearance of electrical punch lists for the GTS Project.

In view of the above, Contractor shall ensure the following:

- Contractor must ensure that the above lower-tier Subcontractor fully complies with the requirements of the Contract including compliance with the Company's HSE Management System Guidelines, Project procedures and standards.
- In accordance with the provisions of Clause 26.2 of the General Conditions of Contract, Contractor is fully responsible for the acts, omissions, defaults and neglect of any Subcontractor (including works subcontracted indirectly at any tier) as if they were the acts, omissions, defaults or neglect of the Contractor.
- Contractor shall ensure that all Contractual Insurance Policies are submitted to the Company prior to Site mobilization.

This is for your information and further necessary action.

Yours faithfully,

Muhammad Tariq
Project Manager GTS PMC

Subject: CONTRACT NO. 14059474
NEW GATHERING CENTRE, GC-31 IN NORTH KUWAIT
PROPOSAL OF SUBCONTRACTOR FOR MANPOWER SUPPLY NOT LISTED IN APPENDIX H (KOC LIST OF APPROVED CONTRACTORS FOR CATEGORY OF WORKS) OF CONTRACT.

Dear Sir,

With reference to Contractor's letters 02-50474-400-3452-21 dated 31st March 2021 and 02-50474-400-3456-21 dated 14th April 2021, Contractor requests approval for the Subcontractor below for the work stated.

There is no category in Appendix H for the stated Scope of Work.

The proposed Subcontractor is not listed in Appendix H; however, it is listed in the current KOC list of Approved Contractors for Categories of Works (refer to Category 5 - Electrical Installation and Maintenance - Plant, Switchgear and Cabling and Category 6 - Cabling Installation - Telecommunication).

Contractor submits pre-qualification documentation which indicates that the proposed Subcontractor is suitably qualified and experienced to carry out the Scope of Work.

Accordingly, Company responds as follows:

S/N	Proposed Subcontractor	Scope of Work	Company Response
1.	Rakan Engineering General Trading and Contracting LLC, Coastal Road, Block 11, Street 54, Hamoud Tower, Building 9, 5 th Floor, Fahsheel - Kuwait	Manpower Supply Manpower: 50 Nos. Start Date: 19 th April 2021. Duration: 6 months.	No Objection

Contractor shall comply with the requirements of the Contract for subcontracting, for example:

- Any subcontracting shall not create any contractual relationship between Subcontractor and Company.
- The Scope of Works shall incorporate all applicable engineering, technical data and relevant terms and conditions in the Contract in order that Subcontractor is bound by such terms and conditions.
- Approval of the Subcontractor is for the Project and specified category of work only.

for Manpower Supply of Civil Works

This has reference to Contractor's Letter ref. #17051672/CK/L/2442 dated 27th January 2019 on the above subject.

Please note that we have reviewed your requested proposal and we have no objection to deploy M/s. ARGT Regional General Trading & Contracting Co. as Manpower supplier for Civil Works, subject your compliance to the following:-

1. It is limited to the subject Contract only.
2. Contractor shall bear full responsibility for all consequences arising of such sub-letting and your compliance with all the requirements of Clause 3 of Contract specification in addition to Technical Specification of the Contract, Part IV - (Civil and Structural Works) and related KOC Standard.
3. The Contractor, if so directed by the Superintendent, shall promptly remove any Subcontractor who misconducts or is incompetent or is negligent in the performance of its duties or fails to conform to any particular provision of the HSE provisions set out in the Contract and any such Subcontractor shall not be employed again on the Works.
4. The above shall be at no additional cost and/or time impact to the Company.

This is for your information and further necessary action.

Yours faithfully,
For KUWAIT OIL COMPANY (K.S.C.)

Subject: Subcontractors For Electrical & Instrumentation Works

Reference is made to your transmittal no.: 17051827/A/O1/CK/L/062 dated 04/03/2018, on the above subject, please be informed that we have reviewed the Company documents of the proposed subcontractor for Electrical & Instrumentation Works and our comments are as given below:

Sl.	Name of Subcontractor	Work Description	Comments
1.	M/s Faddan General Trading & Contracting Co. W.L.L.	Electrical Works	Approved (See Notes below)
2.	M/s. Intergral Services Company	Instrumentation Works	
3.	M/s. ARGT General Trading & Contracting Co.	Manpower & Equipment Supply for E&I Works	

Notes:

1. The proposed subcontractor for Electrical Works is approved to perform Electrical Works for this specific project.
2. The proposed subcontractors for Electrical Works, Instrumentation Works & Manpower & Equipment Supply for E&I Works shall comply with all terms specified in the Contract Document, Company standards, Safety and HSE rules and regulations.
3. The Contractor shall bear full responsibility for consequences arising from such subcontract and for compliance with all the requirements of the Contract.
4. The above Company approval does not relieve the Contractor from his obligation to fulfill all the requirements of the Contract.
5. M/s ARGT is already an existing Sub-Contractor for the same Contract, therefore, no objection to supply of Manpower, however, a dedicated Manpower shall be used for this urgent works.

This is for your information and necessary action.
